

# Ship Shape! Cannonballs

## Over a 90% Reduction of Fossil Fuels/GHG's

Proudly Made in the USA!

Ship Shape! Cannonballs (SSCB!) in itself means the right shape and size for US Navy ships and any deploying unit in the DoD. Please see the table below for the SSCB! items approved for the USN T-SHML as the CID process continues on our product line. We have spent over a decade developing this product line, hand in hand with US Navy and US Army personnel; keeping in mind the directives in Executive Order-13693 and the NAVSUP PRIME (Plastic Reduction In The Marine Environment) initiative. On March 30th 2015, **Executive Order-13693 mandated a reduction of GHGs (Green House Emissions)**. Ship Shape! Cannonballs represents over a 90% reduction of Fossil Fuels in logistics and our environmentally friendly ingredients meet Executive Order-13693. The technology is simple: individual dissolving packs of green, super-concentrated cleaning compounds that will fit in the palm of your hand and make an entire quart in any bottle or container at the lowest cost. There are no other alternatives that utilize the approved green technologies, that include and incorporate sustainable Biobased technologies with the cleansing power, and hazmat storage footprint reduction as easy to use as the Ship Shape! Cannonballs products. Our packaging technology makes it possible to improve the efficiency of cleaning on board any ship, or deployed unit wherein use of space is mission critical, in compliance with Federal directives.

### One Pallet of RTU Products:

- 4 x 1 gallons per box
- 50 cases per pallet
- Delivers 600 quarts of RTU product
- Requires about 67 cubic feet of space
- Weighs 1650 lbs.

- Reduces storage space requirements by 97%
- Handling weight is reduced by 99.7%
- Shipping charges are reduced by up to 90%
- Plastic to waste is reduced by 99%
- On average, a 35% cost savings!
- Ship Shape! Cannonballs deliver 200 more quarts or 25% more product than an entire pallet of RTU product
- Traditional concentrate packaging has mix requirements that can be rendered useless by equipment failure
  - Design for the Environment Certified
  - Empty jars and tubs are recycled as part of our recycling program
  - Most formulas are biodegradable

GMS2507JR

GMS2507TB

### One Box of Ship Shape! Cannonballs:

- 100 Cannonballs per tub, 8 tubs per box
- Makes 800 quarts of RTU product
- Requires 1.2 cubic feet of space
- Weighs 8 lbs.
